THE ADJUTANT-GENERAL. Result of Contest Between Gen. Wood and off the Hook and in the waters of the General Staff-Wood Opposes Retir-

ing Alnsworth as Lieutenant-General. WASHINGTON, May 20.-The friction between the General Staff Corps and the diutant-General's department of the sentiments, finally informing each other Adjutant-General's department of the army, which has existed with more or less vigor ever since the creation of the General Neither could make out the outline of the Staff Corps, has reached a stage where other, although they were possibly only it is attracting unusual interest in army

Ever since his appointment as Chief of Staff about a year ago Major-Gen. Leonard Wood has worked for extending the authority of the staff. In recent years Major-Gen. F. C. Ainsworth, the Adjutant-General, has enjoyed a predominating influence over military matters by reason of his control of all official correspondence of the army. Gen. Wood has succeeded in obtaining consent to an amendment to the army regulations which will take from the Adjutant-General control over the correspondence between the General Staff and bureau chiefs of the War Department. Under the present system all this correspondence passes through the hands of the Adjutant-General

Gen. Wood believes that this system of carrying all correspondence between the General Staff and the bureau chiefs of the department through the Adjutant-Oeneral's office is not conducive to good and efficient administration and results in unnecessary delays. He is upheld in this view by Secretary of War Dickinson and President Taft, who have authorized Gen. Wood to draw up an amendment to the regulations changing the procedure This amendment will be promulgated shortly. The Adjutant-General's Department, however, will retain control over official correspondence between the War Department and the army.

There are several other questions also on which Gen. Wood and Gen. Ainsworth hold opposing views. The bill introduced in Congress recently by Chairman Hay of the House Committee on Military Affairs consolidating the Adjutant General's de partment and the Inspector General's department with the General Staff contains a provision which will permit the retirement of Gen. Ainsworth as Lieutenant Gen. Wood opposes this provision. In a recent hearing before the military committee Gen. Wood said:

Where we have to consolidate certain terests somebody is bound to be a little bit hurt, but it is unavoidable, I think, in consolidation. I believe the advantages will be so manifest that you would be more than justified in doing it. You may te able to adjust that by an additional grade upon retirement, although I should ned to go very slow in recom-

The bill introduced by Representative Hay increasing the term of enlistment from three to five years is also at issue between the two Generals. Gen. Wood opposes the increase and Gen. Ainsworth is in favor of it. Both officers appeared before the House Committee on Military Affairs last week to express opposing views.

ille Gen. Ainsworth was being heard there was an echo of the official controversy in the War Department. Chairman Hay asked Gen. Ainsworth what he thought of Gen. Wood's statement that an enlisted man who serves for ten or twenty years without becoming a noncommissioned officer is almost worthless to the army. Gen. Ainsworth replied: "That opinion would be worth more weight if it were accompanied by speci-

fications showing why a man with twenty years services should be worthless Representative Prince protested against the line of questioning on the ground that it tended to create friction in the War Department. Chairman Hay defended his questions as necessary to

bring out the opinions of the officers of the "I am not responsible for this mode of questioning," retorted Mr. Prince. we entered an objection showing that I do not approve of getting up this strife between army officers, for I believe it ill work to the harm of the service What we want is information on the bill

and not information which tends toward

getting up strife between the officers of the

The control of the recruiting service of the army is another question which promises to stir up trouble. This work now under the control of the Adjutant-General. Some officers of the General Staff believe that it is not a proper funcof the Adjutant-General's corps vision of the Chief of Staff. Thus far, however, no action has been taken toward bringing about this transfer.

NOT AS IN THE OLD DAYS.

Republican Whip Dwight Has Some Difficulty in Getting a Comb and Brush. WASHINGTON, May 20.-As a result of cratic economy Representative John of New York finds it almost im-

le to brush his hair. weeks ago Mr. Dwight demanded the Government furnish a comb rush for his room in the House office In the good old days of Reon rule in the House all that was ary when a member wanted anywas to send to the clerk of the and get it. When Mr. Dwight week ago he was told to make a in writing. He did. His ded for a comb and brush was referred e Committee on Accounts. The ttee referred the request to a sub-

Some Smaller Craft Stole In, but the Big Ones Stopped Outside.

The fog that manifested itself on land yesterday merely as a transparent mist, tien. Alnsworth Favorable to the lower bay. Two liners, the Hamburg-American steamship Kaiserin Auguste Victoria, from Hamburg, and the Frenchman La Savoie, from Havre, reported themselves in the offing by wireless in that they had anchored in the neighboran eighth of a mile apart. They were the only ships from across seas equipped with wireless that were known to be off the Hook, but from the reports of the coasters that crept in there probably were many freighters keeping the big ones company, as the chorus of foghorns and sirens was titanic.

The customs boarding officers waited until after 6 o'clock last night for word that the Kaiserin and the Savoie were going to make an effort to come in. word came that the veil had grown thicker with a drizzle and that the stalled ships would stay outside until this morning Before coming up to the Ambrose Channe lightship, where the Savoie had anchored early in the morning, the Kaiserin had stopped a while at anchorage off the Fire

Island lightship. Most of the morning and afternoon the marine observers at the Hook were unable to see the beach from their towers. In the occasional rifts they noted several coastvise vessels, including the Clyde liner Arapahoe, which had been anchored off Scotland lightship since morning, feelpassing Quarantine. The only other steamships that came up through the Narrows up to nightfall were an Old Dominion liner, the freighter Ocmulgee, from Sabine and the little freighter Porto Rico, from Baltimore. The customs men had have a busy day to-day.

ARRESTED AT LAW SCHOOL DOOR.

Harlam Could Not Raise Ball and Misse His Final Examinations.

Elwood Hariam, who has been sur porting himself through the Columbia law school by running the Sagamore Garage Company at 58 East Eightyeighth street, was arrested yesterday on a charge of grand larceny preferred against him by Robert J. B. Willis, the credit manager of the Nassau National Bank at 5 Beekman street. Harlam was arrested as he was about to go into the final examinations.

Mr. Willis says that Harlam as treasurer of the garage borrowed \$1,000 on the garage's collections. Then Harlam went around, he says, to Urban H. Broughton of 15 East Seventy-eighth street and collected the cash for a \$41 debt which had been assigned to the bank. It is on this harge that Herlam was arrested.

In the Tombs police court Harlam told Magistrate Krotel that he had worked for seven years for yesterday, the day when he could pass his examinations to be a lawver.

"Let me go in the officer's custody. so I can take my examination," he pleaded. "I won't try to lose him. I've been working for seven years to reach this point, and now that I have reached it I find myself arrested. I'd be willing to give myself up afterward."

Mr. Willis said that he wanted to prose cute, so Magistrate Krotel said he had no choice but to hold Harlam for tria in General Sessions. He set bail at \$1,000 which Harlam could not furnish. The Sagamore Garage is now the Watson Garage. Mr. Watson said last night that he believed that Harlam had had difficulties in meeting a number of bills. He himself had let the building to Har lam, he said, but when Harlam could not meet the rent he dispossessed him. He said he believed that a number of judgments had been made against Harlam, and on March 29 he took the garage over for himself.

FIRE CHIEF A SUICIDE AT 72.

O'Conner of New Orleans Perhaps Wa Following His Friend Col. Seixas.

NEW ORLEANS, May 20 .- Chief Thomas O'Conner, 72 years old and forty-two years head of the Fire Department killed himself this afternoon at his home by shooting himself through the temple. He was a friend of Col. Henry O. Seixas, who killed himself in New York yester-

Like Col. Seixas, he had been in ill health, and friends believe the example of the former New Orleans millionaire influenced him.

Although he had passed threescor and ten years, Chief O'Conner was active at every large fire. He was injured several times. He took command of the volunteer department in 1869. Twenty years ago, when the department was reorganized into a paid service. Chief O'Conner retained command. Every year he was to be seen at the national convention of fire chiefs and once headed the national organization.

The year had been unpleasant for the chief. Up to twelve months ago the Board of Fire Commissioners tried recalcitrant firemen. Then a change of law put this up to the chief alone. Some of his courades of twenty-five to forty years came before him charged with offences which varied from failure to pay debts to drunkenness on duty and desertion. The chief was never lenient, but he hated to renalize his men.

BRAVE CONVICT PARDONED. He Dashed Through Steam to Prevent

crk of the House to issue a requion the proper authorities for a
and brush.

The ice has been out a Moosehead Lake for
ten days. During the last six days guests at
the New Mount Ringe House have caught over
Mo ibs of Treut and Salmon and as much more
has been eaught by those occupying camps and
cottages near ov. Thus far, this is the greatest
fishing season known.—Adv.

GEN. WOOD WINNING HIS FIGHT FOG SHUTS THE SEA GATES. SCORE CHEYY CHASE CLUB

THE PRESBYTERIAN ASSEMBLY SAYS IT'S WICKED

Because It Gives "Smart Dinners" on Su day-Other Sabbath Breakers Named Church Board Federation Plan Adopted-Heresy Case Reopened.

ATLANTIC CITY, May 20.- The drastic report of the committee on Sabbath observance was adopted to-day by the Presbyterian General Assembly

"Social Sunday desecration" ised by the smart set, with particular mention of the national capital's "ultrafashionables," was decried in the report.

"Smart dinners are regular Sunday occurrences at the Chevy Chase Club and an equal number of big dinners and golf matches are given under the supervision of the club," read the report. Real estate brokers who take free excursions to suburban districts on the Sabbath to boom their holdings were also rebuked.

Announcement that closing of the Federal Post Office on Sunday had been secured by the church people of thirty of the big cities was followed by applause. Chairman Yereance, who made the report, also asserted that labor leaders favor the six day a week programme of work for their men, because it tends to solve the problem of the unemployed by giving work to one-seventh more men. Omission of Monday morning recitations to obviate possible Sunday study by students was a recommendation in ing her way in under escort of a tug. the report intended for the faculties of The fog soon swallowed her and she was schools and colleges. Another section next reported at 4 o'clock in the afternoon | took exception to the rule of the national Government in permitting Sunday sports in the army and navy. Sunday automobiling, theatricals, aviation meets, baseball games and travelling were censured in the report.

Arguments advanced by Dr. William nothing to do all day long, but they will H. Black of Marshall, Mo., led to the adoption to-day of the report and recommendations of the executive commission to federate the boards. The debate on the measure took up the entire afternoon session. The review of the evidence in the Grant heresy appeal was heard by he judicial commission, which decided to entertain the papers and give a trial on Monday morning.

measure was generally conceded when Dr. Black demanded as a member of the commission that framed the plan to be motion had already been made to place the whole proposition on the table for an-Columbia law school classrooms for his other year. The motion was not debatable, but the assembly set a precedent in giving Dr. Black the floor with no time

He declared that certain speakers had branded the federation scheme one of "standardoilization" methods. His address lasted an hour. Mark A. Mathews,

previously defended the present system. The defeat of the motion to unite the freedmen, home missions and church stamps used in the office of Borough of sixty-eight to a body of thirty

COP'S CLUB STOPPED HORSE. Man and Woman Who Got in Runaway's Path Hurt.

Morgan Davis of 2272 Pitkin avenue, Brooklyn, was thrown from his buggy last night at Schenck avenue and New Lots road, Brooklyn. His horse kept on at a steady gallop for over a mile. The frightened animal bowled over Joseph Reichman of 575 Schenck avenue and his daughter Hazel, whom Joseph had attempted to save. Both of them had scalp wounds and were attended at their homes. Mounted Policeman Stokley chased the horse along Alabama avenue and at Livonia avenue came alongside the runaway.

The policeman tried to stop Davis's horse by snatching at the reins, but he vas shaken off. After a chase that took the two up Livonia avenue, which was full of people, none of whom were injured. Stokley tried to stop the runaway again and was again shunted off. Finally the nounted policeman had to lean over and stike the horse between the ears with his club. This ended the chase, as the animal went to its knees. Davis was not seriously hurt.

FORTUNE FOR CONVERT.

Who Gives \$50,000 to Rescue Mission That Helped Him.

ELIZABETH, N. J., May 20 .- A year ago William L. Ralston of Pittsburg wandere into the rescue mission in First street a physical wreck and without a cent in his ockets. To-day he pledged \$50,000 to the mission in recognition of the successful efforts of the superintendent, Howard T. Scheckler, to make a man of him. able to make the gift through the death of his aunt, Mrs. Jennie Ralston, who leaves him more than \$300,000.

Raiston returned to this city this morning from Pittsburg, where he had been to settle the various business matters necessary before he could get the legacy. The money will be turned over to him within a month.

"One year ago," he said, "I drifted into ately after the experiment. Elizabeth. I didn't know then why I

\$900,000 FROM MEXICO. Monterey's Passengers Think It's the

Hoard of Diaz Officials.

The Ward liner Monterey, from Mexican ports and Havana, brought in yesterday \$820,000 in Mexican gold specie and \$80,000 n gold bars. More than \$300,000 of this was shipped at Vera Cruz and the rest at Progreso. Passengers by the Mon-terey thought that some of the money represented a part of the fortunes of leaders of the Government who were preparing to get away from the country. and they said that more specie would come up by the Ward liner Mexico, which sailed from Vera Cruz on Thursday. In the cargo of the Merida, lost off the Virginia capes, there were \$750,000 in silver bars and \$30,000 in specie.

The Monterey is the champion catboat of the Ward Line fleet. While in the Gulf of Mexico there were born to Senor Tom Monterey, which belongs to Chief Engineer Martien, and to Señora Tabby Monterey. owned by Chief Steward Donallen, quadruplets, all of the sterner sex. They will be made a part of the ship's company to help reduce the rat population in the

nvestigations about the cultivation of jute in Cuba, arrived by the Monterey. He said that it had been demonstrated that the jute crop of Cuba would yield large returns and that he was back here to get machinery to put in jute mills that will be established on the island.

SWINDLED HELEN GOULD. Negro Impostor Tried It Again, but

Secretary Recognized Him. TABRYTOWN, N. Y., May 20.- Through the alertness of Miss Heenan, private secretary for Miss Helen Gould, Chief of Police Bowles was able to capture a clever negro impostor to-day. The negro pretended to be a preacher collecting funds for the Bethel Church of Tarrytown.

When arrested he said he was W . A. Scott. He called at Lynnhurst this morning and asked for Miss Gould. Miss Heenan recognized him as the man who called a ear ago and got a check from Miss Gould for \$15, which he cashed at a local hardware store. She called up police neadquarters on the telephone and was told to hold the man until the chief arrived. Scott, however, made his escape.

Chief Bowles went down in an automobile and notified the police of Irvington and Dobbs Ferry, and on his return to Tarrytown he saw Scott on the street and

Scott had a check for \$10 from Mrs. Anton Schwarts, which he had obtained yesterday. Chief Bowles is investigating to find out how many women Scott has heard in the interests of fair play. A to the Kings County Penitentiary for three swindled. This afternoon Scott was sent

CRAGEN IS ACQUITTED.

Municipal Justice Freed of One Indictment in Stamp Graft Case.

Municipal Justice John M. Cragen. who has been on trial in the Queens county Supreme Court on a charge of grand lardefeated candidate for moderator, had into the affairs of the borough made about a year ago by Commissioner of Accounts Raymond Fosdick, was acboard of education with the college board quitted yesterday. Twelve indictments followed the plea of Dr. B. L. Agnew of were returned against Cragen by a Queens Philadelphia for continuance of the plan county Grand Jury last fall. All the in now in force. Under the recommenda- dictments referred to the raising of the ions of the commission the boards of receipts for the purchase of postage

The case practically hinged on the estimony of Louis J. McNally, a junior elerk in the office, who admitted having aised the receipts from \$5 to \$50. He told two stories under oath. One was to the effect that he bought the postage stamps in \$5 lots with money furnished him by Cragen, who had charge of the \$500 petty cash fund, and when he got ten eccipts he destroyed nine and raised the enth. Later he changed this story and said his first story was untrue. He t was a "frameup" originated by Cragen and that he raised the postage stamp receipts at Cragen's direction in order to help "eat up" the contingent fund. so that another warrant for \$500 could be

obtained from the city. In his charge Justice Kapper, before whom the case was tried, instructed the jury that if they believed either statenent made by McNally was true they should give it the same weight the would the testimony of the most truthful person. He also pointed out that Mc-Naily was an accomplice. In order to convict the jury must find that the deendant had guilty knowledge of Mc-Nally's acts.

NAVAL OFFICERS CENSURED.

Charged With Neglect of Duty in Connec-

tion With the Sinking of the Puritan. at the Norfolk Navy Yard, on account of duced any signs of life. When Prof alleged neglect of duty in connection with Elihu Thompson, one of the founders of monitor Puritan last November in the Newport News middle ground, which resulted in the sinking of the vessel twenty against her turret armor and against the water line armor belt. The fact that the vessel remained affoat for twenty hours after the explosions seemed to indicate that some one had been negligent in not towing her to the Norfolk yard immedi-

A court of inquiry appointed by Se had come here, but now I believe that tary Meyer recommended the court-marit was an act of Providence that guided tial of several officers and the censuring my footsteps along First street. The Berkshire Inn. Great Barrington, Mass.

LONDON KAISER CAPTURED

PRINCESS LOUISE HIS ONLY RIVAL WITH THE PUBLIC.

His Figure Dominated the Victoria Me morial Dedication Ceremonies Did He Talk Politics With Cousin George? German Government Drop Scene Humor-Matchmaking.

Special Cable Despatch to Tie SUN. LONDON, May 20.-Although the great event itself is more than a month ahead the most striking feature of the coronation season came to an end to-day with the departure from London of the Kaiser and Kaiserin and the Princess Louise.

There is no tendency to attach political importance to the visit, which was officially described as "friendly and of a family nature." The Kaiser brought no Cabinet Minister with him, but he had a member of the Foreign Office staff and also his own cinematographer, who was a prominent figure at the ceremony Thomas Abbot, who has been making of unveiling the Victoria Memorial on Tuesday

> What the King and the Kaiser discussed or did not discuss cannot be stated. Strangers to England were surprised, however, at the warmth of the British welcome to the Emperor of the nation which so many insist is steadily preparing to sweep Great Britain off the seas. The Kaiser, the Kaiserin and the Princess Louise rather than the King, the Queen, the Prince of Wales and his sister were the central attraction throughout the

> public attention. His figure dominated the ceremony at the unveiling of the Victoria Memorial and it was the same at the court ball and at the command performance at the Drury Lane Theatre, Crowds witnessed his every departure and arrival at Buckingham Palace and the other places where he visited and not even the coronation crowd will be greater as he left London to-day.

If the behavior of the man and the woman in the street is to be taken as good evidence the Kaiser was the most popular man in England. As for Princess Louise, the crowd took her to its heart at once. Pretty, fresh, smiling and evidently "jolly," no royalty since the little Prince Olaf of Norway visited ression in London.

The people were delighted to-day to read a despatch to the effect that a Berlin newspaper describes the forthcoming visit of the Prince of Wales to Potsdam as "the political result" of the Kaiser's visit to London. They were still more Princess Louise upon the eve of her de-parture from England. She is quoted as saying: "I do not wish to be a Bavarian, Wirtemburgian or a Viennese; I wish to be English."

Who she is to marry is the question of the day. It seems that there is no one in Europe suitable, as there is none of royal birth near her own age. The Prince of Wales is surely too young and Prince Arthur of Connaught is too far from the throne.

The Kaiser's peaceable capture of London is the jest of clubland, where surrendering London to the Kaiser. The scene on the curtain shows the Kaiser mounted on a white charger with the veritable air of a conqueror. He faces George V. mounted on a black horse. Both monarchs are saluting, while overhead flies a winged figure supposed to be Peace, bearing two wreaths of olive branch, one for each sovereign.

The figure unfortunately looks quite as much like winged Victory bearing crowns of laurel. Her head and both arms bearing the wreaths are directed toward the Kaiser and two other wreath have already fallen before him and the figure of Germania, while there are no wreaths for the King or for Miss Britannia

50,000 VOLTS GAVE NO LIFE. Electricians Tried Them on a Man

8,500 Volts Had Killed. LYNN, Mass., May 20.-A current of octween 50,000 and 75,000 volts of elec tricity was shot into the body of Francis Leary, an employee of the General Electric Company, last night in an effort to bring him back to life after he had come into contact with a 3,500 volt current in an are light he was testing. periment was not successful, although is reported to have restored other electri cal workers apparently dead from similar

O'Leary was employed in what is called WASHINGTON, May 20. Secretary of the the Third B factory as an examiner Navy Meyer has written letters of censure | Last night he touched the 3.500 volt wire to Commander J. V. Chase, commanding and fell to the floor. Other employees officer of the monitor Tallahassee, and tried artificial respiration and forced Naval Constructor H. G. Gillmor, on duty oxygen into his windpipe. Neither prothe ordnance experiment held on the the company, arrived with Dr. George E Woodhill they decided to try as a last resort the 50,000 volt treatment.

To a high frequency coil was attached hours after two charges of 200 pounds a feed wire connected with a tremendous ach of nitrogelatine were exploded voltage, and the current was turned on. The body became rigid. There was no expected flutter of the heart, and after a few minutes the effort was abandoned.

ICE CREAM CAUSED DEATH?

Yonkers Health Officer Orders Analysis of Wares of Street Venders. YONKERS, N. Y., May 20.-Monroe Ad

er, a fifteen-year-old schoolboy, o-day at his home, 551 Van Cortlandt Park avenue, and an autopsy performed by Drs. David Johns and Louis V. Waliron showed that he died of ptomaine poisoning. It is believed that ice cream bought of a street vender caused his

He was taken ill last night, but as no other members of the family were affected the food served at supper is not blamed He took a walk after supper and is though to have eaten cream then. His father, S. Scott Adler, manager of a department store in Passalc, who arrived here after his son's death, said the boy had been in the habit of buying cheap ice cream of street venders.

Adler is the fourth child poisoned by ice cream here recently. Health Officer William S. Coons to-day ordered the city chemist to examine samples of the wares of every ice cream dealer.

ARBITRATE WITH GERMANY? U. S. Sald to Have Laid Draft of Treats

Before Government & Berlin. Special Cable Despatch to THE SUN. BERLIN, May 20 .- It is officialy announced that the United States has brought its draft of the Anglo-American arbitration treaty to the notice of the

LESSON IN WATER ECONOMY. Columbia Shuts Off Its Fountains, Which

Really Waste Very Little. Columbia's Italian fountains in the south court in front of the library building have been turned off until danger of the exhaustion of the city's water supply has disappeared. The water in the fountains was discontinued more for the sake of the moral effect on the people on Mornngside Heights than because of the amount of water wasted, inasmuch as by means of an elaborate system of pumps the water used in the fountains is circulated continually by a pump. The los

is less than half a dozen gallons a day.

It is understood that the university authorities agreed to shut off the fountains as soon as it became apparent that the people in the neighborhood were becoming annoyed at the sight of the water apparently going to waste when it was eded so much elsewhere in the city.

D'ANNUNZIO SOLD UP.

Italian Poet's Villa and Effects Didn's Bring the Amount of His Debts.

Special Cable Despatch to THE SUN. ROME, May 20.- The sale of the effects of the poet Gabriele d'Annunzio and his villa Capponcina, near Florence, brought less than enough to meet his debts. His favorite horse sold for \$140.

The sale was at the order of Signor de Guzzo of the Argentine Republic, under whose auspices D'Annunzio was to lecture in South America.

SUES FOR HURT BY AEROPLANE. Hoxsey's Propeller Dropped Woman Spectator's Nose.

DAYTON, Ohio, May 20.—Sadie Fuller of Oshkosh, Wis., filed suit in the Common Pleas Court to-day against the Wright Brothers Company, asking \$5,000 for injuries received from an aeroplane.

She says she was injured at Milwaukee in 1910 when a piece of Arch Hoxsey's aeroplane dropped, striking her on the head. Miss Fuller was a spectator in England has made such a marked im- front of the grand stand when an exhibition was being given. Through negligence, it is charged, the propeller suddenly ceased to work and the aeroplane, when only forty feet in the air, swooped down upon the spectators.

Miss Fuller's nose was broken and sh was otherwise hurt. Arch Hoxsey was pleased by a remark attributed to the afterward killed by falling with the aero-

GIVE HANS THE LAW'S EXTREME. He Must Give Bond to Go to School a Fev

Days When School Is Closed. special board of inquiry at Ellis has decided that the Lorenzer sisters, Margaret and Martha, aged re spectively, 21 and 18, shall not be permitted to proceed to the farm of their uncle and two brothers in Ormond, Neb., until their brother, Hans, who lacks three months of being 16 years old, has the new drop curtain displayed at the furnished a bond that will insure a conerection are merged into one body, with President Lawrence Gresser during the a reduction from the present membership year 1909, while Cragen was serving as Cooper Surrendering London to the Urmished a bond that will insure a continuation of his schooling until he reaches his sixteenth year. Friends of the Lorenzens, who are sturdy folk from Schleswig-Holstein, Germany, say that by the time the bond is executed and Hans reach Nebraska, he will have only a few week left in which the benevolent law of Uncle Sam may operate. Hans knows farming, anyhow, which is what he will need most to know with his farmer relative at Ormond.

TRAPPED BY BRIDGE GATE.

Policeman Outdistanced by Auto Speeder Telephoned Ahead

The gates at the Brooklyn end of the Williamsburg Bridge were dropped yes terday as Arthur McMillan of 360 Eas 145th street and Reginald Kelly of Plainfield, N. J., came up to them in their

They were trying to escape from Bicycle Policeman James Finan, who had chased them for five miles while they were driving the machine at a thirty mile an hour rate, but Finan had telephoned ahead to the gatekeeper, and as a consequence the two speeders were locked up by Finar in the Clymer street police station when they got to the bridge early yesterday morning.

BROOKLYN NAVY YARD BOOM. 814.000.000 to Be Spent in Improve

ments and Purchase of More Land. According to reports from Washington which reached the Brooklyn navy yard vesterday, the Government is planning o increase the size of the yard by pur chasing five or six blocks adjoining the yard. The new property is needed for the construction of several large piers and other extensive improvements, which

it is estimated, will cost \$14,000,000. The new scheme, which was submitted o Secretary Meyer by Naval Constructor William Groesbeck and Civil Engineer F. R. Harris, will be carried out gradually

GIRL SHOT AT BURGLAR

Who Had Bored Hole in Door Panel

She Missed, but He Ran. Miss Estelle Wheatley, the eighteen-

ear-old daughter of Mr. and Mrs. Charles Wheatley, who live in Thirty-fifth street near Hudson avenue, North Bergen, heard a noise in the kitcheff late on Friday night as she was sitting up with three smaller children awaiting the return of her parents from the theatre. She got her father's revolver and tiptoed into the kitchen to nvestigate. She saw the point of an uger bore its way through a panel in the door beside two finished holes and suspected that a burglar was making ready to break in

Miss Wheatley called "Look out!" and fired twice at the auger holes. Then she crept to a window and saw a badly scared negro running away. She shot at him again, but failed to hit the negro, who jumped over a fence and escaped.

DEWEY'S FURE GRAPE JUICE Purifies the blood, is very nourishing. T. DEWEY & SONS CO., 126 Futton St., N. Y.

RESIGNS WEDNESDAY

GOING TO EUROPE AFTER A SHORT REST ON A FARM.

Entire Mexican Cabinet to Go Out With Him-Limantour Bound for Paris as Soon as Possible-Insurgents Gain-

ing Whole Country Without Fighting.

MEXICO CITY, May 20.-It is definitely but not officially announced that President Diaz will send his resignation to Congress on Wednesday. All the Cabinet will resign at the same time.

Gen. Diaz will go to some haclenda in the republic to rest for a short while and afterward will go to Europe. José Yves Limantour, the Minister of Finance, has announced that he will go to Paris as soon as he is able to arrange his private affairs at home. A telegram from Manzanillo says that

the port was taken by rebels yesterday without a fight, the Federals delivering up the city. All the Americans boarded an American ship that was in the harbor. There was no rioting. Gov. Lamadrid of the State of Colima surrendered Colima yesterday when the

rebels entered the town. The Governor made a speech from the balcony of the State House, asking the revolutionists to take charge and to prevent rioting. Miguel Tepete was immediately elected provisional Governor by the rebels. Cuantla was taken late last night by the rebels. After a hard fight the Federals

retreated to Cuernavaca to reenforce the garrison there. Zapata, leading the rebels near Cuernavaca, is believed not to be respecting the armistice. It is said that he intends to attack that city mmediately. The garrison is fortifying the town and

preparing for a strong resistance. A raveller who talked with Figueros two days ago arrived here to-day. He says that the intention of the leader is to proceed against Cuernavaca to help Zapata. He refuses to recognize the armistice and says that it is only a ruse for the Government to gain more time. He says that Diaz has no intention of resigning but is merely attempting to get Madero to Mexico city to hold him as a hostage.

Figueroa declares that as soon as he had taken Cuernavaca he will proceed against Mexico city. Reports, seemingly from excellent sources, confirm the report of Figueroa's plans. It appears that many are wishing that he would come to Mexico city.

The fear is general now among all na-tionalities that Madero will probably encounter great difficulty, even if Diaz resigns, in ruling the rebel chiefs. The general sentiment is extremely possimistic.

Rebels are concentrating in the State of Michoacan, which heretofore has been peaceful. An attack is expected at any moment, although the rebels have been advised of the armistice in force for the entire republic.

Messages from the United States say

that Madero intends immediately upon coming into power to suspend all bullfights. The information has caused a bad impression. It is believed that fights. The Madero has said no such thing or that he has been misinformed. The company controlling the fights here has conces sions granted by Congress that still have ourteen years to run and it is imp o cancel them.

MADERO SEEKS NO OFFICE. Will Go as a Private Citizen to Mexico

City to Help De la Barra. Et. Paso, May 20. Francisco I. Madero, Jr., announces to-night that he will go to Mexico city only as a private citizen out that he will do all in his power to assist Señor de la Barra in the reestablishment of order when he rises to the Presidency The provisional President denies the report that he ever considered a division of the republic after the promised Diaz

resignation.

word from President Diaz that he will resign before the end of the month and rom another source hears that Vice-President Corral will do likewise. Madero telegraphed to-night congratulations to De la Barra assuring him of cooperation in the reestablishment of peace Alfonso Robles Dominguez, a pro

Madero says that he has received direct

visional Government representative already in Mexico city, has been instructed to confer with De la Barra regarding this matter prior to Madero's arrival at the national capital.

"My going to Mexico city shall be for the purpose of using all my political influence to get a prompt reestablishment of peace," said Madero to-night. neither as a minister nor as an advisor When I resign from the provisional Presidency I will be nothing more than a citizen. As such I will collaborate with Senor de la Barra. The version that a double regency shall be established for Senar de la Barra and myself comes from Mexico city and has no foundation at all. In the first place it is against the Constitution Such régime could not exist. It would not be compatible with the executive chief of the nation and no good Mex-

ican would tolerate it." Gradually the prominent peace advocates of Mexico are leaving. the Madero family except the provisional President, Francisco I. Madero. and his brother and Secretary of the Treasury Gustavo will have gone by tomorrow night. They are returning to their homes in anticipation of a general resumption of peaceful conditions. A majority of the others attracted here in the interest of pacification are also going All consider that the war is over and that it only remains for Diaz to step out as he has agreed and let De la Barra and Madero jointly take up the reins of government and begin restoring Mexico to

a normal condition. In general the insurrecto chieftain has been able to get messengers to his fighters ordering them to stop any further carnage. There has been some fighting in southern Mexico, but none in northern Mexico to-day so far as has been learned at the provisional capital. A messenger got through into the interior of Sonora today, where wires have been cut, and he is

spreading the news of the armistice. The majority of the army now occupying Juarez will leave on Sunday for the south to be in readiness to attack Chihuahus if necessary, according to announcement;
